

### How to Identify VeriFone<sup>®</sup> Topaz<sup>™</sup> and Ruby<sup>™</sup> Cash Drawers

The Cash Drawers used with the VeriFone Topaz and Ruby Systems look nearly the same. The only external difference is the connector. This makes it easy to misidentify them.

- A Topaz Cash Drawer will work on a Ruby system only with the addition of the VeriFone External Adapter – VeriFone # 22839-01 (PMP # 45535).
- A Ruby Cash Drawer will not work on a Topaz system.

The attached Identification Chart will help you order the correct VeriFone Cash Drawer for your application.
